Unmatched Value

While other bicycle companies focus on building bicycles made of outrageously expensive and exotic materials, KHS is dedicated to maximizing value at every level. Side by side, no company packs in as much value, as much performance, and as much quality, in as many different categories and models of bicycles as KHS. But don’t just take our word for it…find a KHS dealer and test ride one today!

Quality, Performance, and Value For More Than 40 Years!

KHS began with a simple goal: build high quality, high performance, yet affordable bicycles. And now, more than 40 years later, we’re still doing just that! KHS was a family business when we started, and we are proud to say we are still a family-run business. KHS makes more different styles of bikes than just about any other manufacturer. We build bikes for riders of every style, size, age, and level of performance. And KHS is one of the few global bicycle brands that still owns and operates its own bicycle factory!

“The Right Tech”

From our top of the line bicycles being raced in the Olympics, national and world championships, to commuter bicycles, to family bicycles just for fun, our bikes feature the same formula: great quality, great performance, and great value. Our design center located in the United States, focuses on finding not just the latest or most expensive technologies out there, but rather utilizing the right technologies for each and every type of bicycle. We do this by designing bikes with the right designs, the right materials, and the right components to make every KHS riding experience a great one.
Champions of All Shapes and Sizes
KHS is proud to support cycling at every level. We’re just as proud of our school programs that teach young riders safe riding skills, as we are of sponsoring high school and college cycling clubs and teams and professional racers. We’re honored to have been a part of helping riders from around the world win Olympic gold medals, world championships, national championships, state championships, and even masters and junior racing championships. At KHS, we believe the spirit of a champion is inside every rider!
PERFORMANCE
This is the most popular road bike category. These bikes offer much of the performance of full blown racing bikes, but in more affordable and accessible versions. They are also more durable, and require less maintenance. They are great for race training, endurance riding, entry-level racers, and weekend road riders.

GRAVEL
Gravel bikes are designed with the performance of a road bike, but with adjustments to the wheels, tires, gearing, and frame geometries to make them more durable for riding on less than perfect roads. Whether it’s gravel, broken pavement, dirt, or just bumpy conditions, Gravel Bikes are fast, fun, and functional!

SPORT
Sport bikes have the look and feel of a racing bike, but in a more comfortable riding and more affordable package. These bikes are great for fitness, commuting, light touring, and fun road riding.
RACING
Racing bikes are the lightest, fastest production bicycles in the world. They utilize the very latest in high performance materials (such as carbon fiber) and ultra-light components. Racing bikes feature performance-oriented designs and put the rider in an aerodynamic position. Whether you want to race or train or just ride fast on the road, there are no faster bikes!

TOURING
Touring bikes are made for riding long distances, often with the addition of packs and gear. Touring bikes offer a more comfortable riding position, durable components, and built in options such as racks and accessory mounts.
Flite Team

Model: Flite Team
Speeds: 22 Speed (2x11)
Frame: KHS Toray High Modulus, Full Carbon
Fork: KHS Pro Full Carbon
Rims: FSA Ion Carbon 55mm Disc, Tubeless Ready
Hub, Front: FSA Ion
Hub, Rear: FSA Ion, cassette
Tires: Kenda Valkyrie, 700x25C, 120TPI, Folding, Tubeless Ready, RC3, KSCT

Frame Size: 24" Wheel  

For Full Specifications, Visit KHSBICYCLES.COM
This is becoming the largest mountain bike category, with all around performance, short but effective front suspension, sometimes rear suspension, and affordable pricepoints. These bikes are fun, comfortable, and able to ride on any terrain, making them great mountain bikes for beginners through advanced riders.

XC (CROSS COUNTRY) RACE

XC bikes are mountain bike equivalent of road racing bikes. They are light and fast, and designed to deliver speed and performance on the dirt. They will typically have shorter travel (120mm or less), sometimes suspension in the rear, though sometimes “hardtails”. The top cross country mountain bike racers in the world race on these bikes.

ENDURO & ALL MOUNTAIN

These are performance mountain bikes, usually with as much as 160mm of suspension travel. These bikes are at home going down mountains, but are geared to be able to be ridden uphill as well. These are able performers whether going uphill or down, and are rugged, performance-oriented mountain rides.

XC SPORT

This is becoming the largest mountain bike category, with all around performance, short but effective front suspension, sometimes rear suspension, and affordable pricepoints. These bikes are fun, comfortable, and able to ride on any terrain, making them great mountain bikes for beginners through advanced riders.
FOUR SEASONS

Often called “fat bikes,” these bikes feature ultra-wide tires that allow riders to take on snow, sand, rocks, trails, and just about any other obstacle. There is no season they can’t be ridden in. They are easy to pedal, lighter than you’d expect, and just plain fun to take out and ride.

TRAIL

Trail bikes have become synonymous with all around mountain bikes. Typically around 140mm of suspension travel, these bikes are at home on trails, singletrack, dirt roads, gravel, and even rugged paved roads. These bikes are super versatile, and super fun—they are the SUV’s of the mountain bike world.

ULTRASPORT

These bikes are a hybrid between mountain and road bikes. They are lighter than most mountain bikes, so they are great on roads. They are also more durable than road bikes, so they can take on trails and roads less traveled. These are some of the most versatile bikes made on the planet.
**Team 29 FS**

Model: Team 29 FS
Speeds: 12 Speed (1x12)

For Full Specifications, Visit KHSBICYCLES.COM
For their first 30 years, mountain bikes used 26” wheels. It was for no reason other than they were the most available size to order parts and components (rims, tires, gearing, etc.) for, and seemed to work reasonably well.

About 10 years ago, companies began to explore alternate sizes. The 29” wheel soon became a preferred size for many mountain bikers. Unfortunately, that size comes with some drawbacks. The 29” wheel works great on large bicycle frames for taller riders, offering reduced rolling resistance. But 29” wheels make it difficult to put on smaller bicycles, where a size such as the 650B (27.5”) wheel allows a much better fitting bicycle for smaller riders.

Enter KHS’s innovative Dual Wheel Sizing™ system. On our mountain bikes, larger sized frames come standard with 29” wheels, while medium and small frames typically come with 650B (27.5”) wheels. This means riders of all sizes can get the very best combination of frame fit and wheel performance without sacrificing one for the other!

For nearly 20 years, our TC line has been a top seller. These 26" wheeled bikes look similar to mountain bikes, but with multi-purpose tires featuring a smooth tread, more comfortable riding position, and comfy grips and saddle.

SMOOTHIE
Smoothie bicycles feature our special Easy-Ride™ design. This lets you ride comfortably, but more importantly, lets you easily touch the ground with your feet.

COMFORT BIKES
Shouldn’t all bikes be comfortable? You would think so, but “comfort bikes” are designed specifically to be very comfortable and very easy to ride. The riding position is more upright, putting less stress on the back, hips, shoulders and arms. These bikes also have cushy saddles and grips, easy shifting gears, and often suspension forks as well.
HYBRID
These bikes are much like our TC line, but with slightly taller 700c wheels that are suited perfectly for smooth spinning on streets, roads, bike paths, and light trails.

MOVO
Movo is a new bicycle from KHS. It features a universal frame with a low step over height, fashionable looks, and comfortable riding position. This is a great bike for riding around town or neighborhood, having fun, and getting exercise.
**Model:** Smoothie DLX
**Speeds:** 7 Speed

**Hub, Front:** Aluminum, QR
**Hub, Rear:** Aluminum, QR

**Tires:** Kenda K838, 26x1.95, w/K-shield
**Derailleur, Rear:** Shimano Tourney
**Shifters:** Shimano Revo
**Crankset:** Aluminum Forged 42T
**FW/ Cassette:** Shimano 7-Speed Mega Range Freewheel, 14-34T
**Seatpost:** Aluminum Micro-Adjust

**Saddle:** DDK Wide Comfort, Memory Foam w/ Elastomer Spring
**Handlebar:** Aluminum Riser
**Stem:** Aluminum Adjustable Angle
**Brake Levers:** Promax Aluminum
**Brakes:** Promax Aluminum Linear Pull, Long Reach

**Color:** Dark Blue
**Frame Size:** Reg & Large
**Extras:** Kickstand, Rack, Fenders
Smoothie

Model: Smoothie
Speeds: 7 Speed
Frame: 6061 Aluminum
Fork: Hi-Tensile Uncrown
Rims: Aluminum 26"
Hub, Front: Aluminum, QR
Hub, Rear: Aluminum, QR
Tires: Kenda K838, 26x1.95, w/K-shield
Derailleur, Rear: Shimano Tourney
Shifters: Shimano Revo
Crankset: Aluminum Forged 42T
FW/ Cassette: Shimano 7-Speed Mega Range Freewheel, 14-34T
Seatpost: Aluminum Micro-Adjust
Saddle: DDK Wide Comfort, Memory Foam w/ Elastomer Spring
Handlebar: Aluminum Riser
Stem: Aluminum Adjustable Angle
Brake Levers: Promax Aluminum
Brakes: Promax Aluminum Linear Pull, Long Reach
Color: Matte Black, Red
Frame Size: Reg & Large
Extras: Kickstand

Smoothie L

Model: Smoothie L
Speeds: 7 Speed
Frame: 6061 Aluminum
Fork: Hi-Tensile Uncrown
Rims: Aluminum 26"
Hub, Front: Aluminum, QR
Hub, Rear: Aluminum, QR
Tires: Kenda K838, 26x1.95, w/K-shield
Derailleur, Rear: Shimano Tourney
Shifters: Shimano Revo
Crankset: Aluminum Forged 42T
FW/ Cassette: Shimano 7-Speed Mega Range Freewheel, 14-34T
Seatpost: Aluminum Micro-Adjust
Saddle: DDK Wide Comfort, Memory Foam w/ Elastomer Spring
Handlebar: Aluminum Riser
Stem: Aluminum Adjustable Angle
Brake Levers: Promax Aluminum
Brakes: Promax Aluminum Linear Pull, Long Reach
Color: Mint, Radiant Orchid, Pink, Coral, Teal, Gray
Frame Size: Step-Thru
Extras: Kickstand

Smoothie 3

Model: Smoothie 3
Speeds: 3 Speed
Frame: 6061 Aluminum
Fork: Hi-Tensile Uncrown
Rims: Aluminum 26"
Hub, Front: Aluminum, QR
Hub, Rear: Shimano Nexus 3 Speed Rear w/ Coaster Brake
Tires: Kenda K838, 26x1.95, w/K-shield
Derailleur, Rear: Shimano Internal 3-Speed
Shifters: Shimano Twist 3-Speed
Crankset: Aluminum Forged 42T
FW/ Cassette: Shimano 18T
Seatpost: Aluminum Micro-Adjust
Saddle: DDK Wide Comfort, Memory Foam w/ Elastomer Spring
Handlebar: Aluminum Riser
Stem: Aluminum Adjustable Angle
Brake Levers: Promax Aluminum
Brakes: Promax Aluminum Linear Pull, Long Reach FT, Rear Coaster
Color: Matte Placid Blue, Tangerine
Frame Size: Ladies Step-Thru
Extras: Kickstand
Model: Movo 2.0
Speeds: 18 Speed
Frame: 6061 Custom Formed Aluminum
Fork: Aluminum Straight Leg
Rims: Alex EV-23 Aluminum Double Wall
Hub, Front: Aluminum Disc, QR
Hub, Rear: Aluminum Disc, Cassette, QR
Tires: Kenda Khan, 26x2.35 w/Anti-puncture
Derailleur, Front: Shimano Acera
Derailleur, Rear: Shimano Alivio
Shifters: Shimano Alivio
Crankset: Shimano 2 pc OBB, 46/30
FW/ Cassette: Shimano CS-HG200-9, 11-36T
Seatpost: Aluminum Suspension
Saddle: DDK Wide Comfort, Memory Foam w/ Elastomer Spring
Handlebar: Aluminum Riser
Stem: Aluminum Threadless
Brake Levers: Shimano MT200
Brakes: Shimano MT200 Hydraulic, 160mm Rotors
Color: Blue; Step-Thru: Gray, Light Purple
Frame Size: M, L, Step-Thru: S, M, L
Model: Movo 0
Speeds: 21 Speed
Frame: 6061 Custom Formed Aluminum
Fork: Aluminum Straight Leg
Rims: Alex EV-23 Aluminum Double Wall
Hub, Front: Aluminum Disc, QR
Hub, Rear: Aluminum Disc, Cassette, QR
Tires: Kenda Khan, 26x2.35 w/anti-puncture
Derailleur, Front: Shimano Altus
Derailleur, Rear: Shimano Altus
Shifters: Shimano ST-EF500-4
Crankset: Shimano FC-TY301, 48/38/28
FW/ Cassette: Shimano CS-HG51-10, 48-38-28T
Seatpost: Aluminum Suspension
Saddle: DDK Wide Comfort, Memory Foam w/ Elastomer Spring
Handlebar: Aluminum Riser
Stem: Aluminum Threadless
Brake Levers: Aluminum Linear Pull
Brakes: Aluminum Linear Pull w/ABS System
Color: Black
Step-Thru: Metallic Red, Light Teal, Creamy White
Frame Size: M, L; Step-Thru: S, M, L

Model: Movo 1.0
Speeds: 24 Speed
Frame: 6061 Custom Formed Aluminum
Fork: Aluminum Straight Leg
Rims: Alex EV-23 Aluminum Double Wall
Hub, Front: Aluminum Disc, QR
Hub, Rear: Aluminum Disc, Cassette, QR
Tires: Kenda Khan, 26x2.35 w/anti-puncture
Derailleur, Front: Shimano Altus
Derailleur, Rear: Shimano Altus
Shifters: Shimano SL-M315 Trigger
Crankset: Shimano FC-TY301, 48/38/28
FW/ Cassette: Shimano CS-HG31-8, 34T
Seatpost: Aluminum Suspension
Saddle: DDK Wide Comfort, Memory Foam w/ Elastomer Spring
Handlebar: Aluminum Riser
Stem: Aluminum Threadless

COMMUTER BIKES

More and more people are riding bicycles to get where they need to go. Commuter bikes are designed to ride comfortably, efficiently, and reliably. Save gas, get in shape, and save the environment. KHS has created two distinct lines of bikes to cater to every commuter’s needs.

X-ROUTE

X-Route is one of our latest lines of commuter bikes. It’s alloy design is made for fast and easy riding, with style cues from more modern fashion, all in a comfortable upright riding position.

URBAN

Urban bikes offer minimal style graphics, and efficient yet highly durable components. These bikes are built not only to get you where you’re going, but to withstand the rigors and challenges of downtown and urban riding.

FITNESS

ULTRASPORT

Our UltraSport bikes have been called the most versatile bikes in the world. They’re built as easy-to-ride fitness bikes that can go just about anywhere, on the road or off!

FITNESS BIKES

Fitness bikes are like the yoga pants of bicycles. They look great, fit great, and can be used whether you are hammering the miles or cruising the bike path. These bikes are designed with style and performance, and are particularly suited to riding for aerobic conditioning.

VITAMIN

This is KHS’s dedicated outdoor “spinning” line of bikes. Slim, sleek, and fashionable, our Vitamin line bikes will let you reach new levels of personal fashion and fitness!

YOUTH BIKES
When we think back to when we were kids, our first taste of freedom and independence is often associated with a bicycle. That’s why KHS puts so much care, quality, and style into our youth bicycles. We offer quality youth bikes that are built to last, far above the level of bicycle you find in a department or big box store. Whether your kid wants a road bike, mountain bike, or just a fun bike, KHS has a quality bike for every youth!
