

BICYCLE OF CHAMPIONS

KHS

KHSBICYCLES.COM

2023 / 24

Quality, Performance, and Value For More Than 45 Years!

KHS began with a simple mantra: build high quality, high performance, and affordable bicycles. Now, more than 45 years later, we're still doing just that! KHS was a family business when we started, and we are proud to say we are still a family-run business. KHS makes more styles of bikes than just about any other bicycle company. We build bikes for riders of every style, size, age, and level of performance. **And KHS is one of the few global bicycle brands that still owns and operates its own bicycle factory!**

“The Right Tech”

From our championship and Olympic gold medal winning bikes, to commuter bicycles, to family bicycles just for fun, our bikes feature the same formula: great quality, great performance, and great value. Our design center located in the Southern California, focuses on finding not just the latest or most expensive technologies out there, but rather utilizing the right technologies for each and every type of bicycle. We do this by designing bikes with the right designs, the right materials, and the right components to make every KHS riding experience a great one!

Uncompromising Value

While other bicycle companies focus on building bicycles made of outrageously expensive and exotic materials, KHS is dedicated to maximizing value at every level. Side by side, no company packs in as much value, as much performance, and as much quality, in as many different categories and models of bicycles as KHS. But don't just take our word for it... find a KHS dealer and test ride one today!

NATIONAL CHAMPIONSHIPS

KAILEY SKELTON
2022 National Downhill Champion

Champions of All Kinds!

KHS is proud to support cycling at every level. We're just as proud of our school programs that teach young riders safe riding skills, as we are of sponsoring high school and college cycling clubs and teams and professional racers. We're honored to have been a part of helping riders from around the world win Olympic gold medals, world championships, national championships, state championships, and even masters and junior racing championships. At KHS, we believe the spirit of a champion is inside every rider!

RACING

Racing bikes are the lightest, fastest production bicycles in the world. They utilize the very latest in high performance materials (such as carbon fiber) and ultra-light components. Racing bikes feature performance-oriented designs and put the rider in an aerodynamic position. Whether you want to race or train or just ride fast on the road, there are no faster bikes!

PERFORMANCE

This is the most popular road bike category. These bikes offer much of the performance of full blown racing bikes, but in more affordable and accessible versions. They are also more durable, and require less maintenance. They are great for race training, endurance riding, entry-level racers, and weekend road riders.

SPORT

Sport bikes have the look and feel of a racing bike, but in a more comfortable riding and more affordable package. These bikes are great for fitness, commuting, light touring, and fun road riding.

TOURING

Touring bikes are made for riding long distances, often with the addition of packs and gear. Touring bikes offer a more comfortable riding position, durable components, and built in options such as racks and accessory mounts.

GRAVEL

Gravel bikes are designed with the performance of a road bike, but with adjustments to the wheels, tires, gearing, and frame geometries to make them more durable for riding on less than perfect roads. Whether it's gravel, broken pavement, dirt, or just bumpy conditions, Gravel Bikes are fast, fun, and functional!

ROAD

Flite 900

Model: Flite 900
Speeds: 24 Speed (2x12)
Frame: KHS Toray High Modulus, Full Carbon
Fork: KHS Pro Full Carbon
Rims: Shimano RS-710 Carbon Disc, Tubeless Ready
Hub, Front: Shimano RS-710 Wheelset Disc

Hub, Rear: Shimano RS-710 Wheelset Disc
Tires: Kenda Valkyrie, 700x28C, 120TPI, Folding, RC3, KSCT
Derailleur, Front: Shimano Ultegra Di2
Derailleur, Rear: Shimano Ultegra Di2 12-Speed Wireless

Shifters: Shimano Ultegra, Di2 Wireless Hydraulic
Crankset: Shimano Ultegra, 52/36
FW/ Cassette: Shimano Ultegra, 11-34
Seatpost: FSA SLK Carbon
Saddle: KHS Carbon Shell Road
Handlebar: FSA Trimax Aero

Frame Size: 24" Wheel

ENDURO & ALL MOUNTAIN

These are performance mountain bikes, usually with as much as 160mm of suspension travel. These bikes are at home going down mountains, but are geared to be able to be ridden uphill as well. These are able performers whether going uphill or down, and are rugged, performance-oriented mountain rides.

XC (CROSS COUNTRY) RACE

XC bikes are mountain bike equivalent of road racing bikes. They are light and fast, and designed to deliver speed and performance on the dirt. They will typically have shorter travel (120mm or less), sometimes suspension in the rear, though sometimes "hardtails". The top cross country mountain bike racers in the world race on these bikes.

FOUR SEASONS

Often called "fat bikes," these bikes feature ultra-wide tires that allow riders to take on snow, sand, rocks, trails, and just about any other obstacle. There is no season they can't be ridden in. They are easy to pedal, lighter than you'd expect, and just plain fun to take out and ride.

XC SPORT

This is becoming the largest mountain bike category, with all around performance, short but effective front suspension, sometimes rear suspension, and affordable pricepoints. These bikes are fun, comfortable, and able to ride on any terrain, making them great mountain bikes for beginners through advanced riders.

TRAIL

Trail bikes have become synonymous with all around mountain bikes. Typically around 140mm of suspension travel, these bikes are at home on trails, singletrack, dirt roads, gravel, and even rugged paved roads. These bikes are super versatile, and super fun—they are the SUV's of the mountain bike world.

COMFORT BIKES

Shouldn't all bikes be comfortable? You would think so, but "comfort bikes" are designed specifically to be very comfortable and very easy to ride. The riding position is more upright, putting less stress on the back, hips, shoulders and arms. These bikes also have cushy saddles and grips, easy shifting gears, and often suspension forks as well.

SMOOTHIE

Smoothie bicycles feature our special Easy-Ride™ design. This lets you ride comfortably, but more importantly, lets you easily touch the ground with your feet.

HYBRID

These bikes are much like our TC line, but with slightly taller 700c wheels that are suited perfectly for smooth spinning on streets, roads, bike paths, and light trails.

MOVO

Movo is a new bicycle from KHS. It features a universal frame with a low step over height, fashionable looks, and comfortable riding position. This is a great bike for riding around town or neighborhood, having fun, and getting exercise.

TC

For nearly 20 years, our TC line has been a top seller. These 26" wheeled bikes look similar to mountain bikes, but with multi-purpose tires featuring a smooth tread, more comfortable riding position, and comfy grips and saddle.

COMMUTER BIKES

More and more people are riding bicycles to get where they need to go. Commuter bikes are designed to ride comfortably, efficiently, and reliably. Save gas, get in shape, and save the environment. KHS has created two distinct lines of bikes to cater to every commuter's needs.

X-ROUTE

X-Route is one of our latest lines of commuter bikes. It's alloy design is made for fast and easy riding, with style cues from more modern fashion, all in a comfortable upright riding position

URBAN

Urban bikes offer minimal style graphics, and efficient yet highly durable components. These bikes are built not only to get you where you're going, but to withstand the rigors and challenges of downtown and urban riding.

X-Route 300

Model: X-Route 300
Speeds: 18 Speed (2x9)
Frame: 6061 Custom Formed Aluminum
Fork: Carbon
Rims: Weinmann U26 Disc, Double Wall
Hub, Front: KK Aluminum Disc, QR

Hub, Rear: KK Aluminum Disc, Cassette, QR
Tires: Kenda Kwick Bitumen K1068, 700 x 40
Derailleur, Front: Shimano Cues
Derailleur, Rear: Shimano Cues
Shifters: Shimano Cues
Crankset: Shimano 2 pc OBB, 46/30T

FW/ Cassette: Shimano Cues, 11-36T
Seatpost: Aluminum Micro-Adjust
Saddle: KHS Ultra Comfort Plus, Soft Shell w/Memory Foam
Handlebar: 31.8 Aluminum Trekking
Stem: Aluminum Threadless 3D Forged

Brake Levers: Shimano MT201
Brakes: Shimano MT200 Hydraulic, 160mm Rotors
Color: Dark Gray
Frame Size: XS/14, S/15.5, M/18, L/20.5, XL/23

FITNESS BIKES

Fitness bikes are like the yoga pants of bicycles. They look great, fit great, and can be used whether you are hammering the miles or cruising the bike path. These bikes are designed with style and performance, and are particularly suited to riding for aerobic conditioning.

VITAMIN

This is KHS's dedicated outdoor "spinning" line of bikes. Slim, sleek, and fashionable, our Vitamin line bikes will let you reach new levels of personal fashion and fitness!

ULTRASPORT

Our UltraSport bikes have been called the most versatile bikes in the world. They're built as easy-to-ride fitness bikes that can go just about anywhere, on the road or off!

YOUTH BIKES

When we think back to when we were kids, our first taste of freedom and independence is often associated with a bicycle. That's why KHS puts so much care, quality, and style into our youth bicycles. We offer quality youth bikes that are built to last, far above the level of bicycle you find in a department or big box store. Whether your kid wants a road bike, mountain bike, or just a fun bike, KHS has a quality bike for every youth!

A BIKE FOR EVERY NEED

KHS has proudly built bicycles for nearly half a century. It's no wonder KHS makes just about every kind of bicycle for every style and type of riding. Our specialty bikes get the same care and attention as our mainstream bikes, delivering our signature quality, performance and value. Specialty bikes include e-Assist, tandems, folding, police bikes, and adult tricycles.

Looking For KHS Bicycle Dealer?

It couldn't be easier with our online dealer locator. Simply go to www.khsbicycles.com and we'll help you find a dealer or distributor.

For dealers in the United States, click on "U.S. Dealers," or to find a distributor outside of the U.S., click on "International Distributors."

Photo Contributors: Danny Munson, Ben Wilson, Jack Rice, David Flick, Chris Hatounian, Logan Binggeli, Kirby Grubaugh

Specifications and graphics subject to change without notice. Use your head. Always wear a helmet.
